About the fund manager

Resolution Capital is a specialist investment manager that focuses on managing global listed real estate securities. Resolution Capital was established in 2004 and is based in Sydney, with offices in New York. Their disciplined investment process emphasises a global sectoral perspective and utilises a multi-portfolio manager approach. The investment team has an enviable breadth and depth of dedicated listed real estate experience. Resolution has managed the Global Property fund since inception in 2016.

Investment philosophy

Resolution focuses on underlying properties owned by each company, searching for high quality and high barriers to entry.

There is a bias for properties in major cities with prime locations, robust tenant demand and landlord pricing power.

The team scrutinises company financials to identify recurring earnings, growth visibility and strong balance sheets.

Stewardship is crucial and is defined as an ESG culture, disciplined capital management and superior asset (property) management.

Resolution is a global leader on responsible investing in Global REITs.

Definitions

- 1) The annualized total return is the average return earned by an investment each year over a given time period. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Due to the delayed release of inflation data, relevant benchmarks will lag by one month. Data source: © Morningstar Inc. All rights reserved.
- 2) Total Expense Ratio (TER), expressed as a percentage of the Fund class, relates to expenses incurred in the administration of the Fund class. The annual management fee includes fees charged by the offshore Fund into which the Feeder Fund invests. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction Costs (TC), expressed as a percentage of the Fund class, relate to the costs incurred in buying and selling the underlying assets of the Fund class. TC are a necessary cost in administering the Fund class and impact Fund class returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund class, relates to all investment costs of the Fund class. Both the TER and TC of the Fund class are calculated on an annualised basis, beginning 2021-07-01 and ending 2024-06-30. Where the Fund class is less than 3 years old, the TER and Transaction Costs cannot be determined accurately because of the short life span of the Financial Product. Calculations are based on actual data where possible and best estimates where actual data is not available.
- 3) The Equity Index referred to under Risk measure is the FTSE/JSE All Share Index (ALSI).

Collective Investments Schemes are generally medium to long term investments. The value of your investment may go down as well as up. Past performance is not necessarily a guide to future performance. Nedgroup Investments does not guarantee the performance of your investment and even if forecasts about the expected future performance are included you will carry the investment and market risk, which includes the possibility of losing capital.

Funds are valued daily at 15:00. Instructions must reach us before 14:00 (12:00 for money market funds) to ensure same day value. Prices are published daily on our website and in selected major newspapers.

Our funds are traded at ruling prices and can engage in borrowing and scrip lending. Some portfolios may hold foreign securities including foreign CIS funds. As a result, the fund may face material risks, which could include, foreign exchange risks, macro-economic risks and potential constraints on liquidity and the repatriation of funds, etc. Nedgroup Investments has the right to close funds to new investors in order to manage it more efficiently.

A schedule of all fees, charges and maximum financial planner fees is available on request. A fund of funds may only invest in other funds and a feeder fund may only invest in another single fund. Both will have funds that levy their own charges, which could result in a higher fee structure.
